Sugaring Fundamentals

This course is the first step you need to take in becoming a certified Body Sugar Practitioner! Whether this is part of your Esthetician Career, or the beginning of a new business venture for you, this course will provide you with everything you need to begin offering Body Sugaring services in a safe environment.

The Just Peachy Training Academy will help you learn in 3 different ways:

- written direction with a manual that you can refer back to as often as you need
- visually through video tutorials
- hands-on training where you get to apply all the concepts you will learn at all in-person training events (If you choose the in-person training option)

With this course you will receive a kit that includes 4 sugar tubs, and one of each of the following: box of Nitrile gloves, Cleanse, Dry, and Sooth (pre and post sugaring care products). In addition, you are invited to join the Just Peachy online community where you can continue to learn and receive support from other students and industry professionals. Access to this online community is a paid subscription (\$99 annually) but as part of this Training Academy, you will also receive access to the Just Peachy Training Academy's online community (private Facebook Group)... for FREE!

Once you are a student of the Just Peachy Training Academy, all future courses you choose to take will be at a discounted price. And all future purchases of Sugar Paste and products will also be discounted. We want you to succeed, so we are here to help you every step of the way!

Online VS In-Person

There is very little difference between the online and in-person Sugaring Fundamentals courses – the main difference being that you will get 6+ hours of hands-on training in the in-person options, and you will get a 30-minute video call and additional email support with the online version. Each in-person course is one day long and the entire teaching, practice, and certification process happens in those 6+ hours. With the online course option, you can start and finish whenever you like, based on your schedule.

As soon as you register for the Sugaring Fundamentals course (either for the online or in-person course) you will receive access to both the Training Manual and video tutorial. We strongly suggest that you watch the video and read the manual multiple times before attempting the test. The test is also done online through our website, and it is not meant to stump you, but rather to show you where you may need to go back and watch the video or read the manual again if you got an answer wrong.

If you register for the online course, your sugaring kit will be sent to you in the mail. Alternatively, if you live in or near Chilliwack, you can opt to pick it up from our salon on Mary Street if you prefer. Your kit will be provided to you at the Sugaring Fundamentals in-person course.

You will receive your Body Sugar Practitioner Certificate after you have shown us that you have learned the information taught to you and you can safely sugar a client. To receive your certification with the online program we will ask you to email us a completed list of your practicing hours and a 30 second video of you applying, and flicking off, the sugar paste.

All courses are non-refundable once purchased.

Brazilian Training:

Learn how to master the most sought out sugaring service ever – the Brazilian. Often referred to as the “Hollywood”, being able to offer Brazilian services will take your business to the next level, guaranteed!

The In-Person training course will have you getting a Brazilian as well as doing three Brazilian services on Academy-provided models. You will do 100% of the sugaring on the three models, and we will supervise and give tips and instruction as needed. This course can only be taken AFTER you have been Certified as a Body Sugar Practitioner either with the Just Peachy Training Academy or another training company. You must have a minimum of 30 hours of sugaring practice to be able to take this course as you will need to be 100% comfortable with sugaring before attempting to sugar the most intimate and sensitive part of someone’s body.

The online course is 30-minutes long and thoroughly shows you how to do a Brazilian while providing tips and tricks along the way. Both the in-person and online versions of this program will provide you with a manual, video tutorials, and Certification in Brazilian Sugaring. *This course covers information on internal genitalia only*

Vagacial Training:

Vagacials are THE hottest thing right now and you do NOT want to miss the boat on this amazing money-making service! This online course was created after taking multiple different Vagacial courses ourselves and finding that no one out there actually taught a proper Vagacial course (so frustrating). We wanted to be able to offer our clients the full meal deal: sugaring, steamed towel services, extractions, mask options, and finish with a relaxing massage with preferred post-sugaring products. So that is what this course offers – ALL of the above! You’ll also learn our tips and tricks for marketing this new service, and recommendations for which Hydrojelly mask to use when! After watching this 20-minute video you will also receive Certification as a Vagacial Professional.

This course covers information on internal genitalia only

Manzilian Training:

Double your bookings and triple your sales by offering intimate sugaring services to all genders! Manzilians (or Brazilians with external genitalia) are not offered by many salons, so YOU will stand out from the crowd by offering this much desired service! This course is currently only offered online. After watching this 20-minute video you will also receive Certification as a Manzilian Professional.

Eyebrow Sugaring Training:

The second most requested service when it comes to sugaring is eyebrows. Knowing how to shape the perfect eyebrow based on your client's natural bone structure and facial features is critical. And so is having the confidence to tackle this tricky body part without removing too much, or the wrong, hair. Our online Eyebrow Sugaring Course teaches you everything you will need to know to start sugaring client's eyebrows immediately and even includes mapping practice sheets.

Eyebrow Henna Training:

COMING SOON

Another fast-growing service in the beauty industry is Eyebrow Henna: a safe alternative to eyebrow tinting. Using an all-natural plant-based henna and superior brow shaping skills, you will be able to offer all of your clients the perfect eyebrow shape for their uniquely shaped face for up to 6 weeks! With dozens of shades to choose from, your clients can choose both the color and shape of their new eyebrows to get that "on fleek" look for a fraction of the cost of microblading! And they can sleep well at night knowing that henna is both safe for them and the environment as well!

Included in this course is a full Eyebrow Henna Kit valued at over \$400 in products and Certification in Eyebrow Henna.
